Title: Building the Future of Technology at RMKEC

Subtitle:

A community of innovators, builders, problem solvers, and future technology leaders working together to learn, create, and impact the college ecosystem through technology.

Description:

Google Developer Group on Campus – R.M.K. Engineering College is a student-led technology community that empowers students to learn, build, collaborate, and innovate. Through workshops, hackathons, study jams, technical projects, and community initiatives, we create opportunities for students to grow their technical and leadership skills while solving real-world challenges within the college ecosystem.

CTA Buttons:

- Join Community
- Explore Projects
- View Events

Community Impact Snapshot:

- 650+ Hackathon Teams Participated
- 250+ Teams Qualified for Evaluation Rounds
- 100+ Study Jam Participants
- 40+ Google Cloud Completers
- Multiple Student-Led Projects
- Dedicated Technical & Community Teams

What We Do:

Learn – Conduct workshops, study jams, and hands-on technical sessions.

Build – Develop impactful solutions for students, faculty and administration.

Collaborate – Bring together students from different disciplines.

Lead – Create opportunities for leadership and personal growth.

2. About Us Page

Who We Are:

GDG on Campus RMKEC is a student-driven technology community focused on fostering innovation, technical excellence, and collaborative learning.

Our Story:

The community was established in September 2025, with a vision of bringing together passionate students interested in technology, innovation, and problem-solving. Over time, GDG on Campus RMKEC has evolved into a platform where students not only learn cutting-edge technologies but also contribute to impactful projects and large-scale events.

Mission:

- Promote technical learning and innovation
- Build solutions for the college ecosystem
- Encourage collaboration and knowledge sharing
- Provide industry-relevant exposure
- Develop future technology leaders

Vision:

To become a leading student technology community recognized for innovation, technical excellence, and meaningful impact.

3. Our Journey Page

The Past:

Our journey began with a shared passion for technology and community building.

The Present:

An active community conducting events, building projects, and nurturing future leaders.

The Future:

- More campus-wide initiatives
- Larger hackathons
- Industry collaborations
- Open-source contributions
- AI-driven campus solutions
- Scalable products for students and faculty

4. Events Page

Google Cloud Campaign Study Jam

Date: October 2025

- 100+ participants
- 40 milestone completers
- T-shirt rewards distributed by the Principal

- AI + Electronics Wing
- AI/ML Wing
- Backend Wing
- Cybersecurity Wing
- UI/UX Wing

6. Projects Page

Building Solutions for the Campus

Real-Time College Bus Tracking System

Overview:

A transportation solution designed to provide real-time bus tracking for students, faculty members, and administration.

Objectives:

- Real-time location visibility
- Improved travel planning
- Better transportation management
- Enhanced user convenience

Status:

Ongoing Development

Future Projects:

Placeholder for upcoming community innovations.

7. Join Us Page

Become a Part of the Community

Why Join?

- Learn emerging technologies
- Participate in workshops and hackathons
- Build real-world projects
- Network with peers
- Develop leadership skills
- Contribute to impactful solutions

Opportunities:

- Core Team
- Technical Wings
- Event Management
- Community Initiatives
- Design & Branding

Community Memories Section

Heading:

Growing Together, One Milestone at a Time

Description:

Every event organized, every project built, and every challenge overcome adds another chapter to our journey. These moments represent the spirit of collaboration, learning, and friendship that defines our community.

Closing Message:

Behind every successful event is a team that planned it.
Behind every impactful project is a group that built it.
Behind every milestone is a community that believed in it.

This is our family. This is GDG on Campus RMKEC.
